

'Water edge cafe'¹

Encanyissada Lagoon
Poble Nou
Ebro delta

We are building a new restaurant for water birds. Can you help us to find out how our customers eat, what they use to get food, and what food they like best? Record your findings on the sheet provided. Then make a menu for your water bird.

Thank you,

PP. Mallard

Bird species

Is it a wader, diver or dabbling water bird?

What does the bird eat?

How does the bill help it feed?

How does the bird reach its food?

e.g. hunting, diving, dabbling, fishing, stalking, grazing, upending, sieving.

Draw the head and bill here:

Draw the feet here:

Make a menu for your bird:
