$\qquad$ Date: $\qquad$ 1 $\qquad$

1. Complete the following grid with the dices results.

| + |  | White dice dots |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 1 | 2 | 3 | 4 | 5 | 6 |
| $\begin{aligned} & \text { n } \\ & 0 \\ & 0 \\ & 0 \\ & \text { O} \\ & 0 \\ & 0 \\ & 0 \end{aligned}$ | 1 |  |  |  |  |  |  |
|  | 2 |  |  |  |  |  |  |
|  | 3 |  |  |  |  |  |  |
|  | 4 |  |  |  |  |  |  |
|  | 5 |  |  |  |  |  |  |
|  | 6 |  |  |  |  |  |  |

2. Think and discuss with you colleagues.
$\checkmark$ How many different possibilities there are to combine the dice dots? Why?
10
36
5
100
$\checkmark$ Can we obtain the number 1? Why?
Yes $\qquad$ No $\qquad$
$\checkmark$ By launch both dices which doubles can we get?
