## ART GALLERY

"*Art Gallery*" is a project about Arts and Crafts' subject.

The Unit is organized in four parts:

- **Art Gallery:** introduction to famous paintings and painters, presented as if the classroom was a real Art Gallery.
- **Doodles:** basic knowledge about lines and shapes related to famous painters. Pupils can practise the doodles and basic shapes to create paintings based on famous pieces of art.
- **Colour Fun:** basic knowledge of colour mixing and feelings. Pupils practise mixing colours to express themselves in their painting creations.
- **I'm an artist:** pupils' free production and creation of an art gallery with their paintings.

The project consist of:

- **Lesson plans:** that includes aims, objectives, basic competences, assessment, materials, and the learning outcomes divided by content, cognition, culture, and communication.
- **Teaching notes:** that includes all the notes that teachers need to develop the unit: explanations, materials, resources, scaffolding time, grouping etc. They are divided by lessons and activities.
- **Students' worksheets,** with all the sheets pupils need for the class development. It includes some scaffolding worksheets for pupils with the suitable vocabulary and structures to support their oral and written work.
- **Supplementary materials:** it includes the flashcards for the teacher, a portfolio for the students, and assessment.

The project includes 11 lessons, and each one covers 1:30 hours of classroom time, but it could be 2 hours because arts & crafts is a subject where pupils can express themselves and they need sufficient time.

The whole project is based on the pupils' practice, with warm up activities that help students in their oral productions.
