

# POLE BENDING

A game for 2 to 6 players using four coins as dice.

The route in this game is the same as a pole bending course, an event that's sometimes part of a pony competition.

## HOW TO PLAY:

1. Start at **START** and end at **END**. Instead of using playing pieces, write your initials on each space as you move around the course.
2. Shake four coins in your hands and drop them. In this game, heads are called **HORSE HEADS** and tails are called **PONY TAILS**. Move ahead one space for every pony tail in your shake. If you shake no pony tails (all horse heads), trade places with the last player on the board. If you're last, trade with the first player.
3. Follow the directions of any space you land on. Have fun!
