

# **The Earth zones**

**Amparo Sánchez del Casal  
CEIP Dolors Almeda  
(Cornellà de Ll.)**

The sun warms the Earth  
and makes it hot.

Not all zones are the same distance from the sun.

Not all the zones get the same heat.

Which zone is closer?

# Look:

**COLD**

**WARM**

**HOT**

**WARM**

**COLD**

**This is the closest zone  
to the equator...**

**...and  
the hottest.**

# There are 3 zones:

- Tropical zone
- Temperate zone
- Polar zone

# In what zones are these landscapes?

**1**

**2**

**3**

# **Tropical zone**

(Sahara desert)

# Polar zone

(Greenland)

# Temperate zone

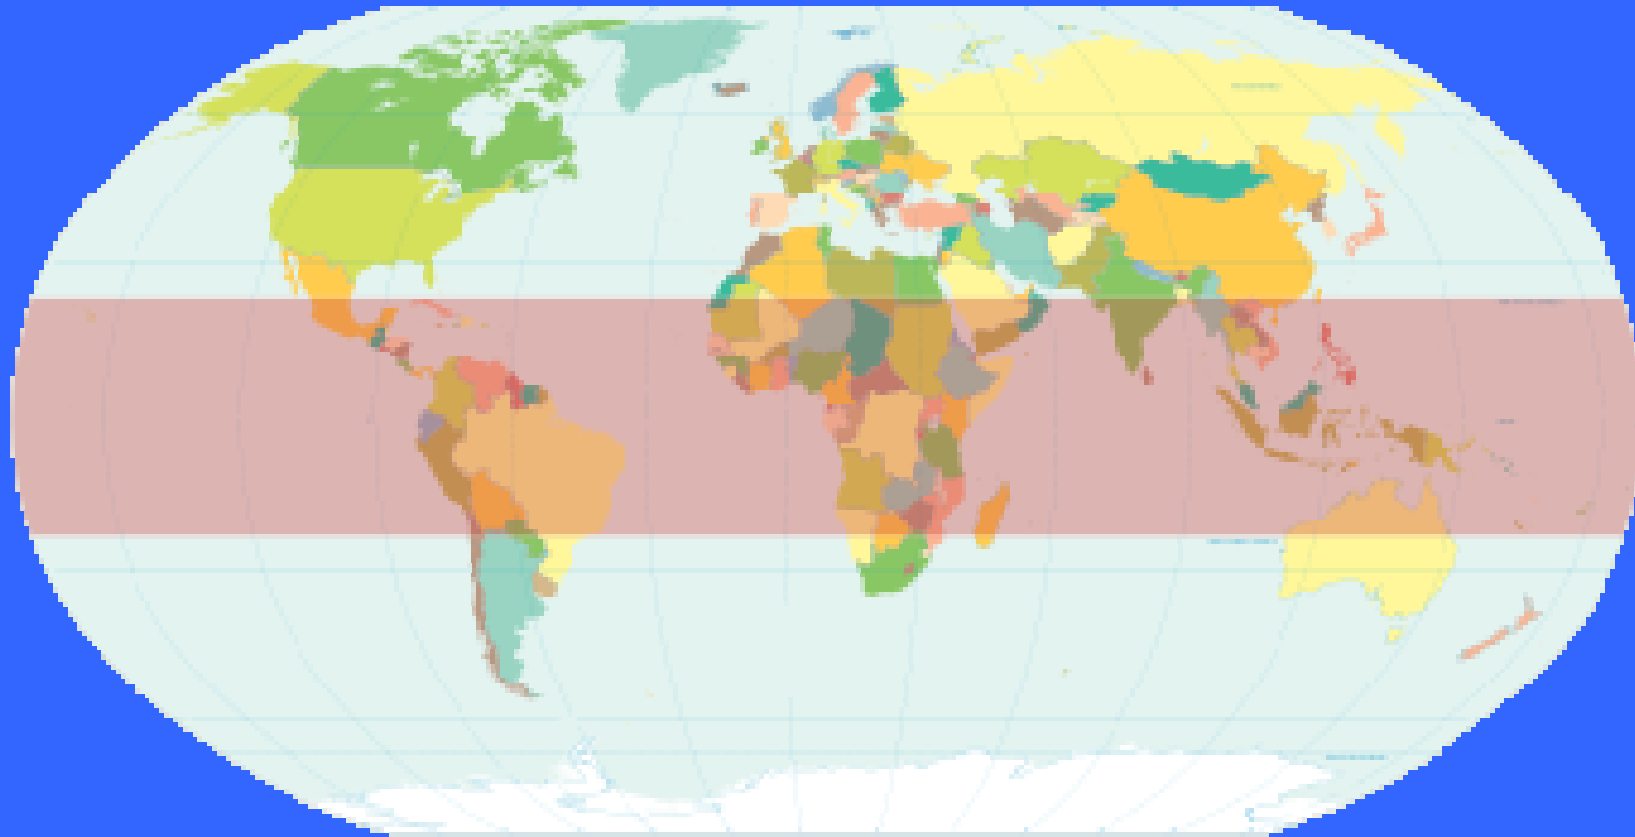

(England)

## **Tropical zone**

**It is very hot  
all year round  
near the equator.**

# Tropical zone

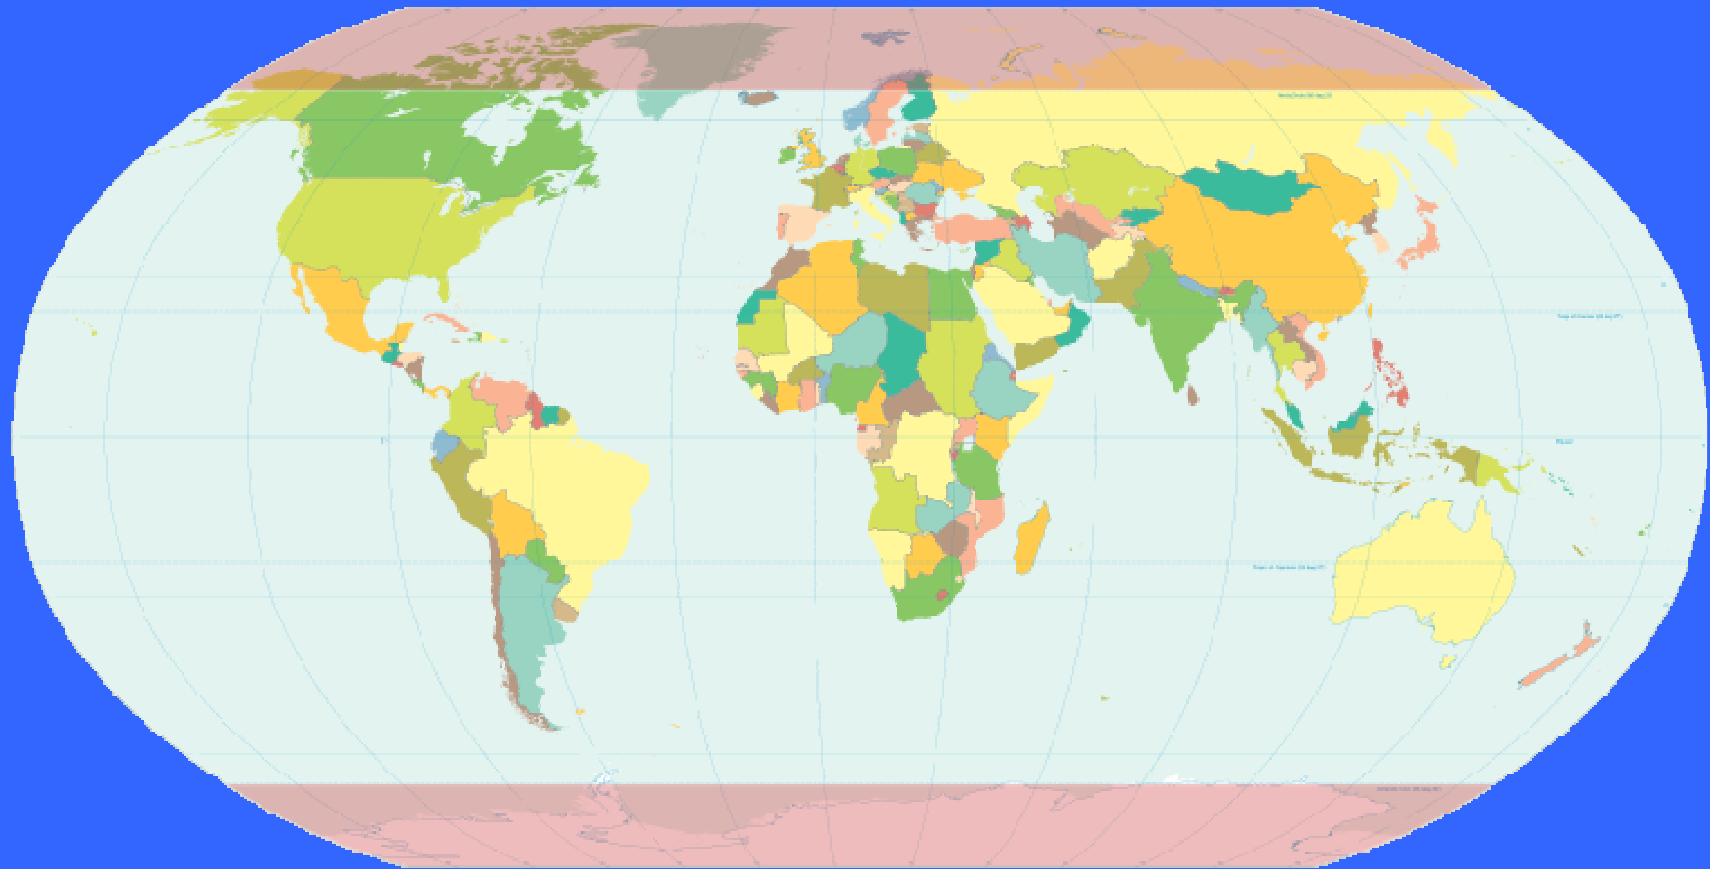

# Polar zone

It is very cold  
all year.

# Polar zone

# Temperate zone

There are  
warm summers  
and cold winters.

# Temperate zone
