

# Who Wants To Be A Weather Expert?

Question 1

What is the hottest  
Climatic zone?

**A** The temperate zone

**B** The polar zone

**C** The tropical zone

Question 2

Which month is in summer  
in the northern hemisphere?

**A** January

**B** February

**C** July

Question 3

We can know if pressure is high  
by using ...

**A** An anemometer

**B** A barometer

**C** A hygrometer

Question 4

What is the climate in  
Barcelona?

**A** Temperate grassland

**B** Temperate deciduous

**C** Mediterranean

# Question 5

Which temperature is  
lower than  $-2\text{ }^{\circ}\text{C}$ ?

**A**  $-1\text{ }^{\circ}\text{C}$

**B**  $-3\text{ }^{\circ}\text{C}$

**C**  $0\text{ }^{\circ}\text{C}$

# Question 6

What country is in the West of Spain?

**A** Portugal

**B** Aragon

**C** France

Question 7

Which type of wind is stronger?

**A** Air

**B** Breeze

**C** Gale

Question 8

What do you  
use to measure  
humidity of a place?

**A** A thermometer

**B** A wind vane

**C** A hygrometer

# Question 9

# What is climate?

**A** One of the four times of the year caused by the hemispheres' different distances from the sun.

**B** The day to day variations in the atmosphere

**C** The average weather conditions taken over the past thirty years.

Question 10

# What is weather?

**A** The measurement tools we use (thermometer, wind vane, barometer...).

**B** The climates around the world (Temperate, Tropical, Polar...).

**C** The day to day variations in the atmosphere (temperature, precipitation, air pressure...).

Let's check  
your answers!

# Question 1

What is the hottest  
Climatic zone?

**A** The temperate zone

**B** The polar zone

**C** The tropical zone

The hottest  
climatic zone is the...

**A** Temperate zone

**B** Polar zone

**C** Tropical zone.

Good!

Question 2

Which month is in summer  
in the northern hemisphere?

**A** January

**B** February

**C** July

In the northern hemisphere  
is summer in ...

**A** January

**B** February

**C** July

Well done!

Question 3

We can know if pressure is high  
by using ...

**A** An anemometer

**B** A barometer

**C** A hygrometer

We can know if pressure is high  
by using ...

**A** An anemometer

**B** A barometer

**C** A hygrometer

Great!

# Question 4

What is the climate in  
Barcelona?

**A** Temperate grassland

**B** Temperate deciduous

**C** Mediterranean

The climate  
in Barcelona is...

**A** Temperate grassland

**B** Temperate deciduous

**C** Mediterranean

Wonderful!

# Question 5

Which temperature is  
lower than  $-2\text{ }^{\circ}\text{C}$ ?

**A**  $-1\text{ }^{\circ}\text{C}$

**B**  $-3\text{ }^{\circ}\text{C}$

**C**  $0\text{ }^{\circ}\text{C}$

It is lower than  $-2\text{ }^{\circ}\text{C}$  ...

A  $-1\text{ }^{\circ}\text{C}$

B  $-3\text{ }^{\circ}\text{C}$

C  $0\text{ }^{\circ}\text{C}$

Impressive!

# Question 6

What country is in the West of Spain?

**A** Portugal

**B** Aragon

**C** France

The country in the west of Spain is...

**A** Portugal

**B** Aragon

**C** France

Excellent!

Question 7

Which type of wind is stronger?

**A** Air

**B** Breeze

**C** Gale

The strongest type of  
wind is...

**A** Air

**B** Breeze

**C** Gale

Uncredible!

Question 8

What do you  
use to measure  
humidity of a place?

**A** A thermometer

**B** A wind vane

**C** A hygrometer

To measure humidity in a place you use a...

**A** Thermometer

**B** Wind vane

**C** Hygrometer

Wonderful!

Question 9

# What is climate?

**A** One of the four times of the year caused by the hemispheres' different distances from the sun.

**B** The day to day variations in the atmosphere

**C** The average weather conditions taken over the past thirty years.

# Climate is ...

- A** One of the four times of the year caused by the hemispheres' different distances from the sun.
- B** The day to day variations in the atmosphere
- C** The average weather conditions taken over the past thirty years.

You are a genius!

Question 10

# What is weather?

**A** The measurement tools we use (thermometer, wind vane, barometer...).

**B** The climates around the world (Temperate, Tropical, Polar...).

**C** The day to day variations in the atmosphere (temperature, precipitation, air pressure...).

# Weather is ...

**A** The measurement tools we use (thermometer, wind vane, barometer...).

**B** The climates around the world (Temperate, Tropical, Polar...).

**C** The day to day variations in the atmosphere (temperature, precipitation, air pressure...).

# Congratulations!
